PROFILE

As a seasoned Android Engineer with over 9 years of experience, I am passionate about bringing the latest technologies to the hands of users all over the world. Having designed and published several high-performance Android applications. Expertise in optimizing app performance, enhancing user experience with animations, and engineering end-to-end mobile solutions. With my experience in Jetpack Compose, Navigation, RxKotlin, Coroutines, Firebase, MixPanel, Kotlin, and more I am eager to leverage skills to drive mobile innovation in a dynamic team environment.

EMPLOYMENT HISTORY

Lead Engineer, LloydsByte LLC
Aurora
Apr 2024 — Present

- Familiarized myself with the latest technologies in Android development and Android Studio IDE.
- Pioneered rebuilding apps to utilize Jetpack Compose, Jetpack Navigation, and Coroutines.

Lead Android Engineer, Auddia Inc.
Boulder
Feb 2022 — Apr 2024

- Re-structured the faidr app using MVVM design principles; migrated framework from Java to Kotlin, improving performance and maintainability.
- Implemented Firebase services, significantly increasing app stability from 80% to 99.6%.

Android Engineer, Vanity Fair Corp
Aurora
Jul 2021 — Feb 2022

- Spearheaded development of The North Face App; utilized Android Navigation Components.
- Integrated Firebase tools, RxKotlin, and Retrofit2, refining architecture and enhancing user experience.

Android Engineer, Papa Johns
Aurora
Jun 2020 — Jul 2021

- Enhanced app UI with Material Design and dark theme; improved user experience with fluid animations.
- Leveraged Firebase tools for performance optimizations, boosting app responsiveness and user satisfaction by 20%.

Android Engineer, Bluprint (NBC)   Denver

Oct 2018 — Jun 2020

- Contributed to the Starz Android App for mobile, Android TV, and Amazon platforms using Material Design.
- Led implementation of Automated Testing with Espresso and Firebase Testing framework.

Android Software Developer, Starz

Mar 2017 — Oct 2018

- Enhanced and maintained Starz Android App across various platforms.
- By integrating Material Design and sophisticated animations, revitalized the app's aesthetic and usability.

Android Developer, Infor   Austin

Nov 2016 — Feb 2017

- Assisted in developing an online shopping app with hybrid web and native code.
- Created UI tests for both codebases using Espresso, improving testing efficiency.

Android Engineer, Eagle Eye Networks   Austin

Feb 2016 — Nov 2016

- Modernized their security app and re-organized source code on Git.
- Developed a new user interface adhering to Material Design guidelines.

Test Technician, Dell   Austin

Apr 2014 — Feb 2016

- Executed concurrent software and hardware testing on multiple systems.
- Coordinated globally spread teams for testing latest tablet devices.

Enterprise Technical Engineer, Samsung

Mar 2013 — Apr 2014

- Delivered B2B technical assistance for Android devices, resolving complex technical issues for high-profile clients.

EDUCATION

Bachelor's Degree in Mobile Development, Full Sail University   Winter Park, FL

Jul 2011 — Jun 2015
